## Skills

HTML & CSS  
Docker  
React  
SQL  
Git  
JavaScript  
React Native  
Typescript  
GraphQL  
NodeJS  
Redux, Redux-toolkit, Redux Saga

## Hobbies

Reading Books and Poetry,  
Badminton, and Blogging.

## Profile

React Developer with a proven track record of building scalable web and mobile applications using the best design principles and techniques. I have 4+ years of experience in Front-end Development and am highly skilled in user interface development, testing, and debugging across the complete development life cycle of a product.

## Employment History

### Software Engineer, Doordash, Pune

MARCH 2022 – PRESENT

#### Sally, Chowbotics

- Joined the Chowbotics team of Doordash to work on their product called Sally, which was a fresh salad dispensing robot with full customization as needed.
- Developed and integrated new features for the application used to place orders on the robot.
- Worked on the canister weight percentage feature for the robot application which provided an estimate of the percentage of ingredients left in the canister.

#### Self Serve Tool for Data Engineering Team

- Currently working with Data Engineering Team at Doordash and responsible for building a web app that will help Data Engineers to onboard their events to our data warehouse.
- My tasks involve building UI components, writing BFFs using GraphQL and writing backend APIs .
- Technologies used are ReactJs, Typescript, React hooks, Formik, Yup, GraphQL and Java.
- This project also helped me understanding the Data pipelines and how data is captured and dumped to the data warehouse like Snowflake using technologies Kafka, Flink, S3, SQL and Confluent Schema Registry.

### Frontend Developer, Accenture, Gurgaon

MARCH 2021 – MARCH 2022

#### Web app for Marriot Hotels

- Provided support for client web app to resolve issues and develop multi-lingual support for different regions.
- Technologies used were HTML,CSS, JQuery, HandlebarsJS, i18n.

### Frontend Developer, TCS

SEPTEMBER 2018 – MARCH 2021

#### TATA AIA

- Started my career at TCS as a React Native Developer and built a client-facing cross-platform mobile application for TATA AIA product.
- Built reusable UI components, tested and debugged the application. Integrated REST APIs.
- Technologies involved were React Native, Redux, Redux-Saga, and Jest.

#### Data-Driven Web App for Life-science Client

- Transitioned into a ReactJS developer and built a web application to visualize client's data in the form of graphs and bar charts.
- Data visualization was achieved using the D3.js library and the graphs and bar charts were developed keeping in mind the responsive web design aspect.
